## Home Made Fertilizer.

Genuterown, Miss., Feb., 1885. Entrole Chargon: I have noticed tor. I have put up two banks of acid hasphate. Kennitt cotton seed and stable anure, covered with rich earth (Judge furmen process of Georgia), in all uting to about 45,000 line I made half this amount last year; it increased the cotton production 150 per cont per sere. We are putting this up merally in our section instead of burning fertilizers. The former is better, When he is at home he is wisting the more lasting effect on our lands. I am anting about one-third the quantity of ad this season in cotton, with my wages hunds, and expect to make as man h cotton by applying about 1000 be per acre. I am now breaking up my in land, broadcast with stout mules to small deep running plows, and behind such one of these I have another hand and mule running in same furrows with a | ag oull tongue; this breaks the land from 10 to 12 inches deep. I will let this be till about 1st of April, when I will hour feet apart, put in this compost,
